

# Quality Cnverting, Inc.

Specialists in Paper Conversion  
for the Trade Since 1998.

Duplex converter is capable of handling paper rolls up to 60" in diameter, 106" in width, with 3", 5", 6", 8", 9-1/2", 10", 12" and 14" cores. Conversions range all the way down to 3" cuts on 3" cores and up to 50" outside diameter. Fully automated and very high speed, this machine can convert papers ranging from 10# Bond up to 24-point cover. Specialty materials such as plastics, metalized papers, release liners, carbonless, and pressure sensitive are handled equally well.

Shrink-wrapped for quality and stored in controlled conditions, our converted paper products can be warehoused here and ready for you when you need them. Our paper-handling equipment is specially outfitted to keep paper rolls round and true in addition to preventing any damage to the first wind.

*Quality  
Converting, Inc.*

Two-drum rewriter can convert rolls up to 71" wide down to an amazing 2". With a maximum O.D. of 40", we can convert to 4" O.D. on 1", 2-1/2", 3", 5" and 6" cores. Capable of handling material from paper to plastic, as well as specialty products including FDA materials, material weights are nearly unlimited. As with all of our processes, extremely rigid quality control, an industry-leading waste factor of less than 4%, as well as automation efficiency insure you'll get the best product on the market at the lowest possible cost.

## *Your Partner in Paper.*

Damaged rolls, left-over rolls, unusual core or diameter specifications, conversions from metric to inches, or inches to metric, **Quality Converting, Inc.** can turn your headaches into profitable paper products. Since 1998, we have worked for the nation's premier paper mills, paper wholesalers, paper distributors, and printers converting tens of thousands of miles of paper from useless to grade-A. We take rolls that won't run because they are out of round or poorly wound and turn them into rolls that run perfectly. We can convert a 100" roll into 50 2" rolls. We reclaim salvaged rolls and turn them into PROFIT.

Since our founding we have been single-minded about quality and efficiency. This has led us to our present enviable position as the Midwest's premier paper converter. Our reputation for outstanding quality, personal service, and competitive pricing has spread as our

business has grown. Our 100,000 sq. ft. facility in Huntley, Illinois is just an hour away from Chicago's O'Hare Airport and is a model of modern manufacturing and kept spotless to insure that your product arrives to you in pristine condition.

Our dedicated staff, both sales and production work every day to earn and keep your business. We do this by making sure that you get what you need, when you need it, at a price that makes sense. The quality of the product that leaves our doors is both a testament to our hard work and the result of our continued investment in the best equipment and techniques.

We look forward to becoming *your* **Partner in Paper.**
