D&D Manufacturing:

“Recognized as a World Class Organization by consistently providing products and services that meet our customer’s expectations, on- time and every time.”

D & D Manufacturing is proud to be one of the world’s premier suppliers of precision stampings for OEM’s in several key industrial sectors. Our leadership in the technology of both stampings and automation has given us a loyal client list as well as recognition for our efforts in several specialty niches.

Occupying three facilities in two states, Illinois and Texas, D&D Manufacturing is uniquely equipped to handle your most demanding stamping/assembly requirement from prototype through to high-volume production.

Our facilities all share the same principles of utilizing the most state of the art stamping equipment while empowering our managers and technicians with the opportunity to incorporate all their experience and ideas into ensuring that leading edge manufacturing is attained.

From engineering product development through to the design of custom tooling systems, D & D Manufacturing possesses extensive engineering expertise and capabilities to ensure the highest level of quality and the most cost effective component/ assembly that the market offers. Our numerous tooling teams consisting of expert toolmakers, programmers, and technicians allow us to control our tooling in- house and accomplish unsurpassed turn-around times on substantial multi- tool projects.

Quality is at the center of everything we do at D & D Manufacturing. Because of our continued extensive investment in quality manufacturing systems, we are able to control critical dimensions with high levels of confidence and in the end present our customers with an exacting product.

- ***Prototype Engineering and Fabrication***
- ***Production***
*Medium to high volume.
Wide range of part sizes and thicknesses.*
- ***Secondary Operations***
*Welding/Multi-head
Staking/Rivetting/Tapping
Assembly/Manual and Automated
Tape & Reel*
- ***Full SPC Capability***
*Seamless process control utilizing
state-of-the-art CNC measuring
equipment (Video/CMM)*
- ***Full Data Transfer Capability***
- ***Visit our Website: www.ddmfg.com***
*Online Order Status Tracking and
Quoting Services*
